THERE is plenty of gold in Texas soil-millions of it.

ENGLAND doesn't annex islands. She just takes possession of them.

one of the greatest attractions at the Dallas fair next fall.

It is still not altogether apparent just what was the object of Chairman Blake in calling the Waco conference so early in the game.

THE foreign demand for American wheat this year is immense, possibly double the usual demand, owing to failure of the supply from other coun tries. This has caused an advance in price of ten cents per bushel for American wheat-an insignificant increase compared with the increase of the demand Republican papers are pointing to this ten cent advance as an evidence of the prosperity which they promised the farmers.

THE announcement that Con gressman Sayers will be in the race for governor has no doubt wilted the hopes of other can-them every year. didutes, as the hot winds in bly get what he wants. It is to of irrigating is more than combe hoped, however, that the re port is antrue. He is too useful as a member of congress to be readily spared from that body, Texas who will do for governor.

"PERSECUTION for opinion's sake" sounds like a line from history of olden times, but even in this enlightened (?) day men be made to suffer for their be liefs The dismissal of Dr. Andrews as president of Brown university, because he dared to openly ally his learning with the cause of bimetallism con trary to the views of the board of that famous institution, shows that bigoted intolerance still exists in high places, and even the president of a leading university dare not entertain opinions opposed to those of the money kings who made the institution.

IRRIGATION IN UTAH,

Average Cost Is \$4 Per Acre, and the Average Farm 27 Acres.

Wichita Falls, Tex , July 31. -Mr. G B. Stone of this city has received the following from Ernest G. Rognoon, secretary of a large irrigation company in Utab:

23, 1897 .- Mr. G. B. Stone, well proved and are too well Wichita Falls, Tex: Dear Sir: known throughout the world, In reply to your inquiries on for any foreign nation to court the subject of irrigation, I a war with us. Though there would say that I had a good is considerable war talk going many years experience, and I on in some newspapers, it is feel fully justified in saying probable that the chances of that farming by means of ir. war with either Spain or Japan rigation has superior advant. are very femote. This country MRS. HETTY GREEN will be ages over farming in a country is notably pacific and does not where dependence is put upon want to fight any nation if it uncertain rainfall.

> After the experience of half a century in Utah it is the unanimous opinion here that rain- a fight becomes inevitable, the fall is a very poor substitute United States will never shirk for irrigation. It is impossible the issue, and once in, will stay to appreciate the immense ad. in until her last resource shall vantage in farming in a country be exhausted, if necessary. whore failure of crops is up. And the fact that her resources known because of drought or are almost unlimited is too paexcessive ralufall.

For some years I have been the manager of one of the largest irrigation systems in this State, and the total cost per acre each year for irrigating crops, including the cost ing. of keeping the canals in repair is about \$4 per acre. This may seem to Eastern farmers a very heavy burden, but I am of the opinion that there are very few of them who would not give much more than this to have an abundant crop guaranteed

The avorage value of irrigat. Kansas have bowed down the ed farms in Utah is \$84.25, and vertising. grain crops. If Joe Sayers wants the average size is 27 acres to to be governor, he will proba the farm. The additional cost spirited men. pensated by the increased amount raised per acre and the increased value of the land.

I have carefally examined while there are lots of chaps in the copy of the proposed amend. ment to the constitution of them. your State, and I feel sure that if your people realized fully the advantages that would accrue should this amendment carry, there would not be the least doubt as to their verdict at the coming election. This sub ject was discussed quite fully at the National Irrigation Congress beld in Pheonix last fall (which Lattended) and it seemed to be the unanimous opinion that with some amendment the Wright law of California would produce good results, and I am pleased to note that your proposed amendment changes the provisions of the Wright law almost exactly as was recommended at this congress.

Hoping that your people will a statue of the heathen deity give this subject, which means so much for the development of Park, it having been be gent investigation, and hoping queathed to the city for the that the amendment you prospecial purpose of adorning pose may carry with a large that park. The city of St. Lovis, majority, I am yours respectful-

Winnipeg Farmer Thinks He Saw the Exporer's Baloon.

Winnipeg, Man., Aug. t .-A White-mouth dispatch to the Press says: Inquiries regarding a large baloon which was seen passing in a northeasterly direction on the even- ink, for only 37 cents. ing of the 28th, three miles from Whitemouth, have elicited the fact that the evening was remarkably calm and

Farmer Henderson was standing at the door of his barn and was taken a glance around the sky when he saw a large oblong object sailing slowly across the horizon.

Gradually he made out the car, when he saw a large swiming into view. Astonishment held him spellbound and again the ghostlike sail swung and gibbed full in view, showing its enormous proportions, then slowly drifted out of sight in the twilight.

Henderson, on returning to paper having a picture of Andrees baloon and declares the airship he saw was of the same character. The baloon was floating very low and Henders son says it could not have Those who oppose improv- been more than a mile away. He could see no signs of life

# The Improved Hitchcock Lamp.

bilities \$103,000; assets about No Chimney! No Smoke! No Odor! Money Saving and Absolute-

Cuts Represent The Lamp With

and Without Shade

ly Safe.

It is the only lamp burning kerosene oil which will maintain a flame of uniform candle power until the oil is entirely exhausted. In other lamps, as the oil is consumed, the candle power of the flame decreases. Hitchcock Lamp is 26 candle power by photometric test. Any good grade of kerosene can be used in it; and it is the only artificial light which gives to tinted fabrics their proper color at night, neither gas of electric light will do this.

By way of comparison we will say the regular central draft kerosene (Rochester) lamp, with a wick 3 inches in cirsumference, will give about 28 candle power with a consumpess Method of FILLING and tion of oil costing \$ 1-4 cents for 10 hours, and producing an immense amount of heat. - The candle will deminish as the oil becomes low-while the Improved Hitchcock is uniform till all the oil is used, and the cost for 10 hours burning will not exceed 3 cents. Besides there will be little or no heat. Burning both lamps for 5 hours per day for one year a saving of about SAN ANTONIO, Texas, will al- \$7.50 will be made in the cost of oil in lavor of the Hitchcock low to each person, coming to their of- Lamp, to say nothing of the loss in breakage of chimneys and trouble of cleaning same.

R. A Marsh, of Delfina, is the agent for the sale of the Improved Hitchsock Lamp on the Rio Grande and he will vis to Brownsville in a few days, when he will show and explain more fully its many advantages. A large number of lamps have been sold in Hidalgo Co., and in every case the purchasers
